Comments: (If possible, please reference section and/or page number in document if applicable.)

I am an 11yr resident & opposes Nevada becoming a dumpsite for other states. I don't believe that the "SCIENCE" being used is sound! I think residents should have more say than a bunch of elected officials who don't know anything about our state & don't care about our future.

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
